WORK EXPERIENCE

Ward Circle Strategies

Senior Web Developer   2020 – 2025

- Worked with state government, commercial, and nonprofit clients to design, develop, and support new and existing websites, including the Listos California website for the California Governor's Office of Emergency Services
- Developed React apps and WordPress plugins to support resource hubs, quizzes, and games
- Ensured the accessibility of client websites following WCAG guidelines
- Developed internal CMS tools to manage client websites
- Administrated the organization's Google Workspace
- Created email templates for and managed client marketing campaigns

First Book

IT Intern   2019

- Managed endpoint systems and antivirus solution
- Analyzed survey data and presented findings to facilitate new partnership development
- Researched and tested implementation of plugins for use on the e-commerce platform

Nova Web Development

Web Developer   2016 – 2018

- Created websites for community-oriented nonprofits and several successful campaign websites for candidates in Virginia House of Delegates races
